The Honorable Tom Cole
Chairman
House Committee on Appropriations
H-307 The Capitol
Washington, D.C. 20515

The Honorable Rosa DeLauro
Ranking Member
House Committee on Appropriations
1036 Longworth House Office Building
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Mansfield Middle School Stormwater Quality and Parking Improvements Project in Fiscal Year 2027. The entity to receive funding for this project is the Town of Mansfield, 4 South Eagleville Road, Mansfield, CT 06268. The funding would be used to replace aging infrastructure and implement modern stormwater management practices at the local Middle School to capture, treat, and infiltrate runoff from the site, thereby reducing pollutants entering nearby waterways and promoting groundwater recharge.

The project is an appropriate use of taxpayer funds because it will reduce the risk of flooding, runoff pollution, and damage to the school facilities. It will also protect the watershed that feeds directly to the regional water service provider which serves tens of thousands of residents.

The project has a Federal nexus because the funding provided is for purposes outlined in 33 U.S.C. 1383(c) (Section 603(c) of the Clean Water Act).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

JOE COURTNEY
Member of Congress
